EXPERIENCE

Freelance Product Designer

Jan 2025 - Present

- Working closely with SaaS and app founders to turn rough ideas into clear, thoughtful product experiences - from early wireframes to polished, developer-ready designs that are ready to ship.

Zyft, Product Designer

Mar 2023 - Dec 2024

- Worked on redesigning their Chrome Extension, Website, and iOS app. My contributions focused on improving user experience, modernizing the interface, and ensuring seamless usability across platforms.
- Increased conversion rate by 34% after launching the redesigned Chrome Extension.
- Collaborated closely with engineers, PMs, and marketers to ensure designs aligned with business goals and technical feasibility.

Big Gorilla Apps, UI Designer

Aug 2021 - Jan 2023

- Designed and delivered mobile apps for charity organizations
- Worked on internal products that included a CMS platform, donation apps, and productivity apps, improving usability and streamlining workflows.

Upwork, Top Rated Freelance UI/UX Designer

Jan 2021 - Dec 2024

- Completed 40+ international projects across industries including SaaS, dashboards, and mobile apps.
- Built a strong client reputation with Top Rated badge, 5-star feedback, and repeat long-term collaborations.

ABOUT ME

I design products that people don't have to think about. For 5+ years, I've worked with startups and SaaS teams to turn rough ideas into structured, shippable experiences especially when the requirements are messy and the deadlines aren't forgiving.

EDUCATION

Daffodil International University

Bachelor in English Literature (2018 - 2021)
